

# Silicone free Leveling agent DCA-31281

 [dcachem.com/portfolio/silicone-free-leveling-agent-dca-31281](https://dcachem.com/portfolio/silicone-free-leveling-agent-dca-31281)

## Introduction

DCA-31281 is an acrylic ester copolymer leveling agent, specifically formulated for water-based systems. It exhibits excellent compatibility, exceptional leveling properties, and rapid performance.

## Physicochemical Data

- Chemical composition: Non-silicone copolymer
- Appearance: Colorless to pale yellow viscous transparent liquid
- Active content: 50%
- Solvent: Dipropylene glycol monomethyl ether

## Product features

- DCA-31281 demonstrates excellent compatibility and leveling properties in solvent-based systems.
- DCA-31281 exhibits strong substrate wetting capabilities.
- DCA-31281 is particularly well-suited for water-based baking paint systems.

## Application areas

Used in solvent-based and water-based systems, including alkyd, acrylic, amino baking paints, polyurethane, and more.

## Addition Method

Generally, use 0.1-1% of the total formulation, and it can be added at any stage of the production process.

## Packaging and storage:

25KG iron drum, stored in a cool and dry place.
