

Silicone free Defoamer DCA-417W

 dcachem.com/portfolio/silicon-free-defoamer-dca-417w

Introduction

DCA-417W is a silicone free defoamer for water based systems. Widely used in latex paint, it has a high defoaming efficiency, and a very small amount can achieve excellent defoaming results , It has strong defoaming ability and it should be introduced in grinding stage.

Physicochemical Data

- Chemical composition: Silicone free polymer
- Appearance: Colorless, viscous liquid
- Active content: 100%
- Solvent: None

Product features

- DCA-417W high efficiency
- DCA-417w is low dosage

Application areas

DCA-417W defoamer is suit for water based system

Similar Products: NXZ

Our products have a good cost-performance ratio, receiving positive feedback from customers in China and overseas markets.

Addition Method

DCA-417W should be charged at the lapping stage during the produce with **0.05%** to **1.0%** dosage to gross.

Packaging and storage:

25KG iron drum, stored in a cool and dry place.
